COVID-19 Impact on Graduation Date and Program Delivery

At the time of your enrollment we have done our best to give you a projected graduation date, as stated on your enrollment agreement. Your estimated graduation date is determined based on program length and finishing the program in normal time. Your actual completion date can be impacted by various factors, including but not limited to; repeating failed classes, withdrawal, taking a leave of absence from program, changing programs, and/or delays in completing externship hours. COVID-19, and its mandated restrictions and orders are no exception and have the potential to impact and delay the estimated graduation date documented on your enrollment agreement. Delays in completing required on-campus activities and externship are a possibility should the COVID-19 pandemic be prolonged.

In addition, due to the situation in general and state and local orders associated with the COVID-19 pandemic, CHCP is unable to determine if and when delivery method operations will return to normal. As you have been informed, due to the pandemic both residential and blended delivery programs are being delivered remotely and you will be required to attend the campus for hands-on skills training and competency check-offs. There is the possibility that the entire program may be delivered remotely, with the exception of skills and competencies.

CHCP will work with all students over the duration of their program to communicate any changes as a result of the COVID-19 pandemic. Should you have any questions or concerns regarding your anticipated graduation date, please speak with your Program Director or the Director of Education.

ADDENDUM B - Tuition and Fee Schedule

Addendum to School Catalog

Effective date September 10, 2020

A registration fee which is calculated as part of the total program cost is due at the time of enrollment. **All tuition payments must be made before completion of a program**, unless other arrangements have been made via the enrollment agreement or finance plan. Each student will receive an enrollment agreement, which will outline the payment schedule. The College has the right to charge a student/graduate a \$25.00 late fee in the event his/her monthly payment(s) should become delinquent more than 4 business days. Students must be current on monthly payments to begin externship. Students who are not current on monthly payments by the completion of classroom training may be delayed in beginning their externship. For more details on this policy, see the catalog regarding externship attendance. Transcripts and certificates of completion are not issued to graduates until all monies due the College have been paid in full. In the event that a student does not meet the terms of the enrollment agreement or finance plan, the College will negotiate an alternative payment plan. If the student does not meet the terms of the alternative plan, the student's account will be turned over to a collection agency or sold to a bank.

Revised September 2020

Important Information Regarding Surgical Technology - Associate of Applied Science Degree Program

On March 22, 2019, the College of Health Care Professions (“CHCP”) received approval from its accreditor, the Accreditation Bureau of Health Education Schools (“ABHES”), to offer the Surgical Technology - Associate of Applied Science Degree Program at CHCP’s Austin campus.

ABHES has advised CHCP that it is approved to add this new program within its existing grant of institutional accreditation and it has stated that the program “meets the ABHES programmatic initial accreditation requirements.”

Although CHCP has received initial approval under ABHES’ accreditation standards for Surgical Technology programs, the program is subject to continuing review according to ABHES standards and procedures.

This means, among other things, that the Surgical Technology program will be subject to an on-site evaluation to be conducted when the program’s students reach the clinical phase of the program. At that time, CHCP will be required to demonstrate that it continues to meet all ABHES requirements for Surgical Technology programs in order to complete the accreditation review of the program.

For you, the student, it is important that CHCP successfully complete the accreditation review of the Surgical Technology program at some point during your period of enrollment. CHCP must complete the ABHES accreditation review during your period of enrollment to make certain you can take the Certified Surgical Technologist exam (“CST exam”) following your graduation.

Surgical Technologist program graduates who pass the CST exam receive certification through the National Board of Surgical Technology and Surgical Assisting (“NBSTSA”). This certification is highly sought-after by health care providers who hire Surgical Technologists in general. In addition, the State of Texas requires all Surgical Technologists receive NBSTSA certification in order to work in state licensed hospitals. Therefore, your ability to obtain certification can greatly impact your ability to find future employment as a Surgical Technologist.

The normal time frame for completing the ABHES accreditation review is less than two years. At this time, CHCP is progressing normally through the process as required by ABHES. CHCP has successfully completed this process at other campus locations in Texas. However, CHCP cannot predict or guarantee that it will be able to complete the process with ABHES within any specific timeframe.

If you have any questions or concerns about this notice and what it means for you, please contact Jennifer Torres at (512) 617-5700.

I have read and fully understand the notice above regarding the accreditation status of the Surgical Technology program and its impact on my ability to sit for the CST exam.
