

CHCP PROGRAMMATIC CERTIFICATIONS – FULL DISTANCE EDUCATION PROGRAMS

Program	State Offered	Professional State Licensure or Certification Required?	State Licensure Determination	National/State Organization	Name of Certification
CODING AND REVENUE CYCLE MANAGEMENT - AAS	All except California and Massachusetts	NO	There are no State Professional Licensure or Certification Requirements.	n/a	n/a
DENTAL ASSISTING - CERTIFICATE	Texas	YES	The institution has determined that its curriculum meets the state educational requirements for licensure examination eligibility.	Texas State Board Dental Examiners (TSBDE)	Registered Dental Assistant (RDA)
HEALTH CARE MANAGEMENT - AAS	All except California and Massachusetts	NO*	As a general rule, there are no State Professional Licensure or Certification Requirements. *The institution has not made a determination that its curriculum meets the state educational requirements for licensure or certification for all possible employment options in Healthcare Management/Administration. See comment	<p>COMMENT:</p> <p>Health care managers/administrators can work as nursing home administrators (NHA), residential care and assisted living administrator (RCAL), home and community based services (HCBS). If a health care manager or administrators wants to work in nursing care facilities or entities stated above, that individual will be required to be licensed in the state of employment. Licensure is required for health care administrators working in nursing care facilities and the requirements vary from state to state. Additionally, individuals working in assisted-living facilities may be required to be licensed, depending on the state in which they work. The one aspect of licensure that is consistent in most states is that healthcare administrators must complete a state-approved training program, have at least a bachelor's degree and pass a licensing or certification examination. For more information visit: https://www.nabweb.org/state-licensure-requirements</p>
